

## HYBRID AND EV HANDS-ON IMMERSION WEEK

JUNE 3RD – 7TH, 2024

GET PLUGGED IN AT THIS YEAR'S ELITE TRAINING EVENT

**A FULL WEEK OF CLASSROOM AND  
HANDS-ON INSTRUCTION ON ALL SYSTEMS  
SEEN IN HYBRID AND EV VEHICLES.**

- Learn how to work safely on Hybrid and EV High Voltage Vehicle Systems.
- Hands-on application of diagnostics and repair (assembly, disassembly) of power splitters, Hybrid-EV transmissions, and components.
- Hands-on application of HV battery service, repair, charging and discharging, as well as power-up and power-down procedures.
- Hands-on diagnostic process and repair of power units, control module, inverter, DC-DC and DC-AC conversion, and more.
- Scanner use, hybrid module diagnosis and general to specific Hybrid and EV diagnostic approaches and strategies are covered.
- Hands-on Lab Scope diagnostics on motors, inverters, batteries and resolver circuits are covered in detail.
- This immersion event is loaded with classroom and hands-on sessions throughout the entire week!
- Attendees will come out of this training Hybrid and EV vehicle service-ready and enjoy the backup of DiagNation Remote Support (when needed at the shop level). This is the most real-world, comprehensive training for shops seeking to enter the High-Voltage Hybrid and EV repair market.
- This event is limited to 25 participants.
